

Associate of Arts in Criminology

About this degree

Criminology is the social-scientific study of crime, including the measurement, etiology, consequences, prevention, control, and treatment of crime and delinquency. Closely aligned with the CNM sociology program, the criminology program is designed to meet the requirements for an Associate of Arts in Criminology from CNM. It will also prepare students to obtain a Bachelor of Arts in Criminology or Sociology from a four-year college or university.

Pursue Your Goals

Courses in this program help students develop a structural perspective, which in turn gives them a broad understanding of crime, law, and society. Students will develop critical thinking skills through comparison of major theories in the field, analysis of crime trends, and evaluation of the criminal justice system.

Information about career options for criminology majors is provided to students by the American Sociological Association and the American Society of Criminology. The criminology program prepares students for further academic study and/or employment in the fields of:

- Parole and probation
- Criminal justice
- Law

Course Length

7 Weeks

Costs per credit

\$159

Transfer Credits Out

CNM Online Associate degrees transfer to participating four-year colleges in the state of New Mexico. Some restrictions apply.

Transfer Credits In

Courses

Criminology is the social-scientific study of crime, including the measurement, etiology, consequences, prevention, control, and treatment of crime and delinquency. Courses in this program help you develop a structural perspective, which in turn helps you understand crime, law, and society more broadly and critically.

| | |
|--|-------------------------|
| Composition I | ENGL 1110 - 3 credits |
| In this course, you will develop reading and writing skills that will help with the writing required in their fields of study and other personal and professional contexts. Students will learn to analyze rhetorical situations in terms of audience, contexts, purpose, mediums, and technologies and apply this knowledge to their reading and writing. | |
| Fundamentals of Information Literacy and Systems | BCIS 1110 - 3 credits |
| You will examine systems and their impact on commerce, education, and personal activities, as well as utilization of productivity tools for communications, data analysis, information management and decision-making. | |
| Composition II | ENGL 1120 - 3 Credits |
| You will explore argument in multiple genres. Research and writing practices emphasize summary, analysis, evaluation, and integration of secondary sources. The emphasis of this course will be on research methods. | |
| Introduction to Sociology | SOCI 1110 - 3 Credits |
| This course introduces you to the basic concepts and theories of sociology, as well as to the methods used in sociological research. The course addresses how sociological concepts and theories can be used to analyze and interpret our social world, and how profoundly our society and the groups to which we belong influence them. | |
| Intro to Criminology | SOCI 2130 - 3 Credits |
| You will learn to understand and apply criminological theories that are produced within the field of sociology. These theories focus on how social structures, social contexts and particular kinds of social relationships influence the social activity of crime at both the micro and macro levels. | |
| Introduction to Psychology | PSYC 1110 - 3 Credits |
| This course introduces you to the concepts, theories, significant findings, methodologies, and terminology that apply to the field of psychology. | |
| Sociology of Deviance | SOCI 2210 - 3 Credits |
| This course is designed to provide an overview of the study of deviance and social control from multiple sociological perspectives. The instructor will present how sociologists research deviance and social control and the ethical issues involved in studying human subjects involved in these activities. | |
| Chemistry in Our Community | CHEM 1110/L - 3 Credits |
| This course will introduce non-science majors to the basic chemistry required to understand topics of current interest affecting their communities, such as air and water quality, global climate change, use of fossil fuels, nuclear power, and alternative energy sources. | |

| | |
|--|-------------------------|
| Life Science for Teachers | NTSC 1120 - 4 Credits |
| Prerequisite: ENGL 1110 or ENGL 1110P Uses activities for the study of science topics including botany, cell biology, genetics, microbiology and zoology with emphasis on science processes, inquiry and the integration of technology. | |
| Environmental Science for Teachers | NTSC 2110 - 4 Credits |
| Prerequisite: ENGL 1110 or ENGL 1110P Introduces major issues in environmental science with emphasis on science processes, scientific investigations and field-based activities, and the integration of technology. | |
| Contemporary Social Problems | - 3 Credits |
| Pre- or co-requisite: Reading & Writing Skills 2 Recommended: SOCI 1110.* In this course, you will study the nature, scope, and effects of social problems and their solutions. The course will concentrate on sociological perspectives, theories, and key concepts when investigating problems, such as inequality, poverty, racism, alienation, family life, sexuality, gender, urbanization, work, aging, crime, war and terrorism, environmental degradation, and mass media. | |
| General Biology | BIOL 1110/L - 3 Credits |
| Prerequisite: Reading & Writing Skills 2 Recommended: BIOL 1110L* This course introduces non-science majors to basic biological concepts including, but not limited to, the properties of life, biochemistry, cell biology, molecular biology, evolution, biodiversity, and ecology. | |
| Spanish I | SPAN 1110 - 3 Credits |
| Pre- or co-requisite: Reading & Writing Skills 2 Designed for students with little exposure to Spanish, this course develops basic listening, speaking, reading, and writing skills and basic intercultural competence in interpretive, interpersonal and presentational modes of communication at the Novice Level of proficiency based on ACTFL guidelines. | |
| Logic, Reason, Critical Thinking | PHIL 1120 - 3 Credits |
| Pre- or co-requisite: Reading & Writing Skills 2 The purpose of this course is to teach you how to analyze, critique, and construct arguments. The course includes an introductory survey of important logical concepts and tools needed for argument analysis and composition. | |
| Interpersonal Communication | COMM 2120 - 3 Credits |
| Prerequisite: Reading & Writing Skills 2 This course provides an introduction to the study of interpersonal communication. You will examine the application of interpersonal communication in personal and professional relationships. | |
| Introduction to Research Methods | SOCI 2410 - 3 Credits |
| Prerequisite: SOCI 1110. This course is a survey of qualitative and quantitative approaches to sociological research. It provides an overview of the research process, focusing on research design, hypothesis formulation, measurement, and data collection. You will develop the ability to critically analyze social research, as well as design and execute your own research projects. | |
| United States History II | HIST 1120 - 3 Credits |
| Pre- or co-requisite: Reading & Writing Skills 2 Recommended: (ENGL 1110 or ENGL 1110P) * The primary objective of this course is to serve as an introduction to the history of the United States from Reconstruction to the present. The elements of this course are designed to inform you on the major events and trends that are essential in the understanding of the development of the United States within the context of world societies. | |
| Developmental Psychology | PSYC 2120 - 3 Credits |
| Prerequisite: PSYC 1110 Study of human physical and psychological change and stability from a lifespan development perspective. | |
| Survey of Mathematics | MATH 1130 - 3 Credits |
| Prerequisite: Math Skills 3 or MATH 1101 or (MATH 1111 + MATH 1112) This course will develop your ability to work with and interpret numerical data, to apply logical and symbolic analysis to a variety of problems, and/or to model phenomena with mathematical or logical reasoning. | |

Introduction to Race, Class, and Ethnicity

AMST 1140 - 3 credits

Pre- or co-requisite: Reading & Writing Skills 1

This course offers an introduction to the field of American Studies through an interdisciplinary examination of race, class and ethnicity in the United States and in a global context. We will examine histories of injustice, and resistance to injustice

Introduction to Theatre

THEA 1110 - 3 credits

Pre- or co-requisite: Reading & Writing Skills 2

This course provides an introduction to the study of theatre. You will examine various components that comprise theatre, such as acting, directing, playwriting, dramaturgy, scenic and costume design, stagecraft, spectatorship, history, theory, and criticism.
